Tchinda Mouafo Dorian Francis
Computer Engineer (Applications and Systems Software Engineer)

PROFESSIONAL PROFILE

An accomplished Software Engineer in Object-Oriented Design and Analysis with extensive experience in the full life cycle of the software design process including requirements definition, prototyping, proof of concept, design, interface implementation, testing and maintenance.

CORE SKILLS AND ABILITIES

- ✓ Project Management
- ✓ Expertise in software engineering fundamentals
- ✓ Great Programming skills
- ✓ Planning and developing ideas
- ✓ Coordination and directing team based projects
- ✓ Documentation and communication skills
- ✓ Know for ability to work with diverse consulting groups, business partners, designers, product developers, QA teams and clients.

TECHNICAL SKILLS

- **Software/Website User Interface/Data exchange**
  - o HTML5
  - o JavaScript
  - o XHTML/CSS
  - o Angular JS, JSON, Bootstrap
  - o Photoshop Cs 3 and 4
  - o Graphic design
- **Software Back-End Programming**
  - o JAVA
- **Software Back-End Scripting**
  - o PHP 5,
  - o Zend-framework, MVC

- **CMS - Content Management Systems**
  - Joomla
  - WordPress
  - Drupal
- **Databases**
  - MySQL, PostgreSQL
  - WAMP (Windows-Apache-MySQL-PHP),
- **Project Management**
  - Tools project management: Git, Source Tree , Jira , Bitbucket
  - Agile/Scrum methodology
  - Managing brainstorms and meetings with clients
  - Project cost estimation
  - Project planning (Timesheet, Gantt, etc.)
  - Proposal writing
  - Second-hand (written) interaction with clients/suppliers
  - Firsthand (oral) interaction with clients/suppliers
- **Relational skills**
  - Experience in team leadership
  - Experience working in a team
  - Negotiating expertise
  - Public Speaking
- **Software Architecture**
  - Experience in requirement analysis
  - Software modeling methodologies (UML)
  - Software design patterns
- **Spoken languages**
  - **French** : **Speaking competence:** Master [**Native speaker**], **Written competence:** Master
  - **English**: **Speaking competence:** Fluent, **Written competence:** Fluent
  - **Chinese**: **Speaking competence:** Beginner, **Written competence:** Beginner

EMPLOYMENT HISTORY

February 2013---2014

Software Engineer, JRK-Software

Responsibilities:

- Use PHP5, HTML5, CSS3, Angular JS, Bootstrap, JavaScript, GIT, Source Tree, JIRA, Zend Framework, XAMP, WAMP, Photoshop
- Work in SCRUM to groom product requirements, estimate work, and commit to deliverables
- Plan, coordinate and conduct multiple complex software engineering activities
- Team Manager (3 co-workers)
- Create and participate in software planning and estimating, status monitoring and reporting
- Software design, prototyping and investigating
- Software coding and unit testing
- Systems integration and testing
- Software documentation
- Work with product team, QA team, supporting team to develop requirements
- Troubleshoot for program errors in existing systems
- Manage and support other software engineering staff
- Participate in continuous improvement initiatives

April 2012---February 2013

Software Engineer, Rainbow Diffusion

Responsibilities:

- Developed original e-commerce website and wed applications, encompassing design, coding, testing and maintenance.
- PHP5, HTML, CSS3, Ajax, XML, JAVA, J2EE, Joomla, Drupal, Photoshop
- Software design, testing
- Full lifecycle development
- Software documentation
- Create technical documentation of detailed design in terms of UML diagrams and API specifications.
- Design and improved workflow procedures
- Conducted staff training and needs analysis
- Supplied, configured and provided troubleshooting for new computer software, include the financial, accounting and HR systems.

July 2011---April 2012

Software Engineer, Fire Software

Responsibilities:

- Maintenance software
- Maintenance Computer
- Maintenance Network
- Software coding, testing
- Software design, testing
- Software Documentation
- Deployment, integration , test and training software
- Verbal and written communication with customers to resolve new and outstanding issues
- Collected internal and external feedback to drive new application enhancements

EDUCATION

- ✓ **MSc in Computer Science   (Software Engineering)**   Wuhan, China

School: Wuhan University.

Graduated: May 2015
